Re: FLU vaccine is a State Mandate!

“According to the New Jersey Department of Health and Senior Services administrative rule N.J.A.A. 8:57-4, Children six months through 59 months of age attending preschool on or after September 1, 2008, **shall annually receive at least one dose of influenza vaccine between September 1 and November 30 of each school year.**”

The flu vaccine is required by the state. EOCDH Health service area staff is reminding all parents/guardians to have their child vaccinated as soon as possible.

Yours in Better Health,

EOCDH Health Service Staff

Parent/Guardian, please remember to provide us with a doctor's note or immunization record stating that your child has received at least one dose of the flu vaccine. Thank you.
